Workshop: Clay, Paper, Color – Ceramics Surface Design

Kirsten Bassion

Notes:

This will be a hands-on workshop with lots of demos mixed with time for you to practice! The New Art Center will be supplying tiles on which to practice during the demos. Then at the end of the day, there will be time set aside for you to practice layering some of the techniques you’ve learned.

Materials:

- Bring your clay tools
- Your clay (if you need to make a piece for afternoon practice - tiles will be provided.)
- Notebook and pencil
- Variety of bamboo brushes in different sizes
- Your own underglazes if you would like color options. Some glazes will be supplied by the New Art Center.
- Any leather hard pieces you’d like to practice on
